DS-2™ FRONT TIRES

- Aircraft inspired tread design offers reduced weight, minimal rolling resistance and high-speed stability
- Asymmetrical tread pattern improves high-speed stability by reducing the tire's tendency to "walk" at the top end
- 4-ply nylon construction with high-strength bead provides added durability, especially during mounting and dismounting
- Ozone-resistant tire compound withstands the harmful effects of the sun and other environmental conditions
- Tested to 300 MPH with 800 lb. load
