

Part Number 65127 Installation Instructions

Parts List:

- (1) Cool Can
- (1) Cool Can Lid
- (1) Stud
- (1) Wing Nut
- (2) T-Bolt Clamps
- (1) Mounting Bracket
- (1) Drain Cock

-8AN Fitting P/N: 22604 (2 Required)
Replacement Mounting Kit P/N: 97817

This cool can is designed and tested to have a maximum working pressure of 125 psi. The inlet/outlet ports on the Cool Can are -8AN for easy plumbing. The inlet and outlet ports are interchangeable, meaning the fuel can flow through the can in either direction.

Install drain cock in the bottom of the can with Teflon tape. After installation, fill the molded container with water to check for any leaks. It is also recommended to check for any fuel leaks in the Cool Can.
