## REMOTE BATTERY JUMPER TERMINALS
P/N 74140
INSTALLATION INSTRUCTIONS

These terminals can be mounted remotely in any convenient location providing easy accessibility for jumping or charging battery.

After selecting the location, cut holes as per the diagram below.

Install the terminals and secure in place with locknut.

Connect each terminal to the corresponding pole on the battery using high amperage battery cable such as our Moroso P/N 74003, 74005 and 74055 Battery Cable Kits.
