

P/N 89590 TIRE PRESSURE GAUGE COVER INSTALLATION INSTRUCTIONS

1. Remove the hose from the gauge by unthreading the chrome pressure release fitting from the bottom of the gauge.
2. Very lightly coat the inside of the rubber gauge cover with a silicone lubricant safe for plastic, soapy water, or Windex to facilitate assembly.
3. Insert the gauges hose fitting through the square hole in the side of the gauge cover first, and then push the cover up and over the rest of the gauge.
